When a phone booking is received....

- Admin discuss with the woman the models of care on offer at WCH to help the woman determine the best clinic to book into
- A 2-hour slot is allocated. 1-1.5 hours for the Triage and then up to 30 mins to complete referrals/GP letters.
 Optimal time is at 14/40 when EDC can be finalised.
- The woman is sent a link to complete the registration form and register for the Woman's Antenatal Pathway
- Currently book 5 appointments a day, 5 days a week.
- Wait list is approximately 3-4 weeks.

During the booking :-

- We complete the Handheld Record. It does save time if the GP has commenced it
- We check that we have a complete set of booking bloods/USS*
- We finalise the due date
- We check that the woman has had the option for SAMSAS Screening, and that nuchal USS has been offered regardless of an NIPT test*
- We touch on Genetic screening
- We check that Early Gestational Diabetes screening has been offered*
- Place necessary referrals (using the Antenatal first visit assessment tool)
- Go through the schedule of care and book the 36-week apt with an Obstetric Consultant and 40 week apt with Registrar back at WCH
- Ensure the woman knows about the various ways to book her 20/40 morphology USS
- We discuss access to Parent Education/Breastfeeding Education/Checklist
- We complete a clinical handover letter*

Following the booking.....

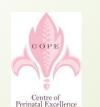

Manually enter the data onto Electronic Medical Record and raise the clinical handover letters to the GP, bloods and USS are also ordered through EMR. Internal referrals are currently manual.

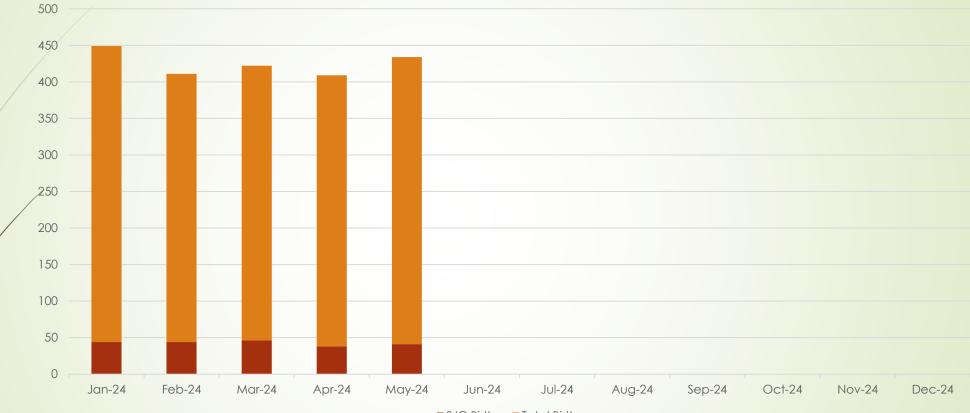

Data is collected to provide statistics for GPSC Stats.....
