

FREE ONLINE COURSE DESIGNED FOR GPs, PALLIATIVE CARE NPS, AND RACH STAFF

Refresh your syringe driver skills and opioid administration knowledge for in-home palliative care

This short, self-paced, online course builds confidence in subcutaneous medication management giving you more tools to support end-of-life care when oral medications may no longer be appropriate.

- 2-hour online program with certificate on completion
- Syringe driver (NIKKI pump) use
- Opioid prescribing in palliative care
- Home and residential aged care focus

In this course, you can select the modules that interest you and revisit the course anytime.

Created by GPEX and commissioned by Country SA PHN as part of the Greater Choice for At Home Palliative Care Initiative, supporting clinicians to provide high-quality end-of-life care where most patients want to be – at home.
